# FIBER OPTIC INTERNET SERVICE

The gold standard of connectivity, with rate plans to suit every household.  
\$150 activation fee. No data caps or hidden fees. No minimum contract.  
Internet service the way it should be!

100  
MBPS  
\$85

200  
MBPS  
\$100

FIBER 100

Great for smaller households and casual internet users. Check email, surf the web, stream TV.

- 100Mbps speed up & down
- Router included

### FIBER 200

A great value! Double the speed of our base rate at just \$15 more per month. Support more devices simultaneously with ease.

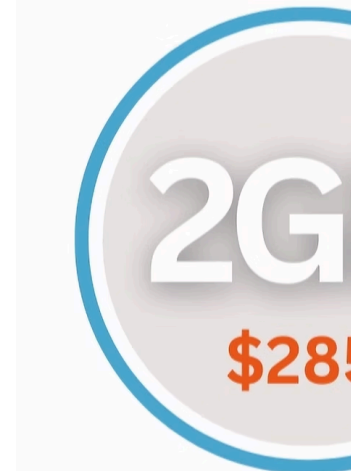

- 200Mbps speed up & down
- Router included

### FIBER 1 GIGABIT

Gigabit Fiber gives you enough overhead to do everything at once - stream, game, work, shop - you name it! With Rock Island Gigabit Fiber, the internet is your oyster.

- 1GB up & down
- Router included
- Mesh WiFi recommended to get the most out of this rate plan

### FIBER 2 GIG

Take it to the max with 2GB. For those with complex or very high data needs, this plan comes with some e

- 2GB up & down
- Router included
- Bridged router available
- No activation fee
- High end WiFi6 AP incl
- VOIP phone service fre

A note on speeds: We guarantee your selected fiber plan speed to the router. To see full speeds, test with a wired connection on a capable device, with no other devices disconnected. Wi-Fi results may vary based on device limits or network usage. Most computers can't exceed 600Mbps, even on faster plans—that doesn't mean your connection is slow. Choose the plan that keeps all your devices running smoothly at the same time.

Static IP address available on all fiber optic rate plans at \$20/month.

# FIXED WIRELESS INTERNET SERVICE

---

Enjoy instant, plug & play connectivity on the nation's first Fixed Wireless network.  
\$50 activation fee. No data caps. No throttling.  
First month FREE for new customers!

A circular graphic with an orange border and a light gray background. The word "CLASSIC" is at the top in blue. Below it, "UP TO" is on the left and "MB PS" is on the right, flanking a large white "50". At the bottom, "\$80" is written in blue.

## CLASSIC

---

- Up to 50Mbps download speed
- Router included
- First month FREE for new customers
- No data caps or throttling

A circular graphic with an orange border and a light gray background. The word "PLUS" is at the top in blue. Below it, "UP TO" is on the left and "MB PS" is on the right, flanking a large white "75". At the bottom, "\$95" is written in blue.

## PLUS

---

- Up to 75Mbps download speed
- Router included
- First month FREE for new customers
- No data caps or throttling

A note on speeds: Due to the nature of wireless technologies, we are not able to guarantee any particular speed on Fixed Wireless. The first month is offered free of charge to new customers, so that you can ensure the service in your area suits your bandwidth needs before committing to a monthly service. If you start service and it isn't meeting expectations, please call for troubleshooting. Speed varies by location due to topography, tree coverage, and proximity to a Fixed Wireless network site. To see full speeds, test with a wired connection on a capable device, with no other devices disconnected. Wi-Fi results may vary based on device limits or network usage.

# MANAGED MESH WiFi

Seamless coverage. Smart support.  
Available as an add-on to any internet service, starting at just \$5/month.

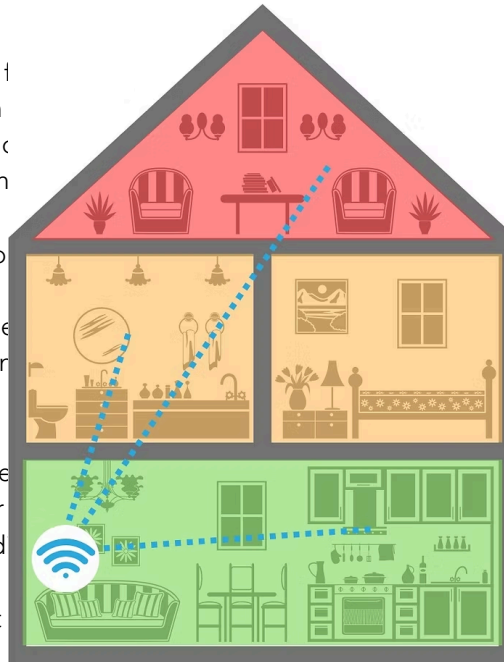

## Why Mesh?

Our homes have more connectivity than ever before and smart home devices are in every corner of the house.

The old days of one access point is not enough are over. Mesh is the solution to keep every corner of your home connected. Rock Island's Managed Mesh is the solution.

A mobile app keeps you in control and more at your fingertips. Our support team can easily diagnose and fix any issues.

We thought a lot about how to make sure you have the best experience possible.

## The Problem

A single WiFi access point can't support all the devices throughout your home; dead zones and dropped connections are frustrating!

# HOME PHONE SERVICE

Upgrade Calls. Downgrade Costs.  
Feature-rich home phone service starting at \$17.95/month

## Voice Over IP

Voice Over Internet Protocol (VOIP) phone service is the modern answer to aging landline infrastructure.

- Uses your internet connection - with fiber optic service, VOIP is more reliable than copper landlines
- Keep your local number
- Mobile app included - take your home phone on the go
- Voicemail-to-email
- Caller ID
- Spam call filtering
